
MarineSTAR Product Guidance Note

Reference: *Guidance Note 5.0.MS*
Date of issue: *27.07.2010*
Subject: *Passenger Ships Visiting Oslo*

Destination Oslo

Oslo is a major cruise ship destination as well as being an important passenger and Ro/Ro ferry terminal. It is also the head office location for Fugro Seastar AS. For these reasons we are happy to offer a free annual health check for ships fitted with MarineSTAR high performance navigation systems. This will include a visit onboard by one of our engineers to check system performance and provide any user guidance required. In the case of MarineSTAR MS manoeuvring systems the opportunity will also be taken to provide any berthing database upgrades available.

To take advantages of this offer simply contact seastarservice@fugro.no or our Technical support Phone on +47 21 50 14 20 call giving the ship name, ETA and quoting Destination Oslo.
